TORONTO, March 30, 2020 /CNW/ - As concerns surrounding COVID-19 increase both in Canada and around the globe, it is clear that PPE is increasingly hard to source and more expensive.

To help bring PPE to our community of Canadian hospitals and healthcare organizations, Levitt-Safety is building large national orders for PPE.

This option is open to our current customer base and to any Canadian healthcare organization that is in need of PPE like masks, gowns, gloves, eye protection or other necessary products like hand sanitizer.

By placing larger orders we can use our joint buying power to reduce shipping costs and take advantage of bulk order discounts.

To do this, we must act fast.

We have created an [Emergency Supply Sourcing](#) page on our website which shows the items we are sourcing and the lead times. If there are products you do not see on this list but require, we will work with you to source the product. If our combined buying power allows us to source at better prices, we will flow that savings directly back to those placing orders

[View available products](#)

To place an order call 1-888-453-8488 or submit a web inquiry through the form on that page.

To take advantage of this large national order, get your orders into Levitt-Safety by **5pm local time on Thursday, April 2.**

Please note: Due to the circumstances most suppliers are requiring us to pay upfront to secure these items. As such, we will require payment upfront. We are accepting credit card payment for orders under \$5,000 and wire transfers for orders over \$5,000.

About Levitt-Safety:

Levitt-Safety is a national provider of life, fire and environmental safety products, services, and training. [With strategically located branches](#) across Canada, Levitt-Safety is ideally equipped to serve companies of any size or industry who want to create a culture of safety in their organization
